

In the specification:

Page 1, line 2, replace "Prior Art" with -- Cross Reference to a
Related Application

This application is a continuation of application serial number
09/101,131 now patent number 6,161,248.

Background of the Invention

The present invention relates to wiper blades for motor vehicle
windows. --,

line 3, delete "of the type indicated in the preamble of
claim 1,"

line 17, delete in its entirety,

line 18, delete "1."

Page 2, line 13, replace "Advantages" with -- Summary --,

between lines 13 and 14, insert -- It is an object of the
present invention to provide a wiper blade which avoids the disadvantages
of the prior art.

In keeping with these objects, and with others which will become apparent hereinafter, one feature of present invention resides, briefly stated, in a wiper blade for windshields of motor vehicles which has an elongated rubber-elastic wiping strip placeable in contact against a windshield to be wiped, and an elongated, springing-elastic carrying element for holding said wiping strip, wherein the spring elastic carrying element has a lower surface in continuous contact all along its length between first and second ends with a back surface of the elongated rubber-elastic wiping strip.

--

line 15, delete "In contrast in" with -- In" and after "with the" insert -- present invention --.

line 16, delete "characterizing part of claim 1".

Page 5, line 4, before "Drawing" insert -- Brief Description of the

--.

Page 6, line 3, replace "Embodiment" with -- Preferred --.

In the claims:

Cancel all claims without prejudice.
